PERSONAL PROFILE

Innovative and results-driven Fullstack Developer with expertise in web and mobile solutions, specializing in TypeScript, React, NestJS, and AWS. Passionate about designing scalable architectures and leading high-performing teams to deliver top-tier applications. Adept at optimizing performance, enhancing UI/UX, and driving technological innovation.

WORK EXPERIENCE

Senior Software Engineer
Lean Tech (Sept 2024 – Present)

- Fullstack Developer | Team Lead
- Developed e-commerce solutions, integrating NestJS and TypeScript to create scalable and efficient architecture.
- Led the development of a React Native application from scratch, designing a solid and well-structured mobile architecture.
- Provided technical leadership, improving code standards, implementing best practices, and selecting the most suitable tools for optimal development.

Fullstack Software Developer
Globant (Sept 2022 – Sept 2024)

- Designed and developed web interfaces for banking solutions using TypeScript, React, and AWS to ensure high-quality code and extensive testing.
- Built scalable components with Material UI, enhancing the user experience on financial platforms.
- Applied Python for backend processes, utilizing Django and Flask to improve microservices communication.

Software Developer
ZipDev | Purecars Client (Jun 2021 – Sept 2022)

- Developed and optimized marketing web solutions with Azure, React, and TypeScript.
- Implemented automated testing with Vitest, refactored components, and enhanced performance in large data table views.
- Worked with C# and Node.js, using .NET and Express for backend development.

EDUCATION

University of Santander
System Technologist | Mar 2002 – May 2006
GPA: 4.3
Google UX/UI Professional certificate 2022
